Once you have set Select From to be Signs you can chose to Add to selection, Replace selection, Remove from selection or Keep.

The default selection is to select by Box.

To use Box click left mouse button and keep it down while dragging it down or up to the right or left to create a rectangle over the wanted Sign(s). With Sign(s) of interest being covered let go of the button and the Sign(s) will be selected (Yellow circles around them and Asset ID listed on bottom left side.

Click on map to select assets Ckeep								

Rather than Box you can chose Fence, Draw or Circle.

Fence:

Click on starting point, let go and go to next location and click to start building a fence shape and on last point double click to finish selection.

Draw:

Select a start location on the map and keep the mouse down as you move the mouse around the area of interest and when you let go it takes the signs under the shape you drew on the map.

Circle:

Select center of circle and drag out to get a circle around the Signs of interest.
